

# Fermata

charging stand for wireless headphones

## The World's First Charging Stand for Wireless Headphones.

MacBook short on USB ports? Wireless Headphones didn't include a charger? We have solved this challenge beautifully. Meet Fermata, an elegant aluminum stand that not only holds and showcases your premium headphones but is also a full charging station that keeps you powered up. Set your headphones atop the stand's buttery soft leather saddle and connect the integrated charging cable to power up your headphones for your next work day or business trip. The functionality continues with an in-base, additional USB port to charge your iPhone or iPad. Now you can have all of your recharging needs housed in one beautiful stand.

### Key facts:

- Elevates, charges and displays micro-USB powered wireless headphones
- Charges via integrated power cable & included wall plug
- Additional, in-base USB for smartphone charging + syncing
- Ultra-soft leather pad and 10-inch post supports all size headphones
